EPS Solutions

“Enhanced Professional Services” – Real world solutions, services and training

Company Profile

SYSTMS of NEW YORK is a leading provider of professional services solutions for business and government. Established in 2005 and headquartered in Rochester, NY with offices in Austin and Dallas, TX, SYSTMS-NY serves clients across the nation.

SYSTMS-NY services include consulting, training, contracting and outsourcing of projects. Our core competencies are Security, Networking Solutions, Microsoft Solutions, Data Center Solutions, including SANS, SUN Server Solutions, Linux and Unix as well as Business Continuity/Disaster Recovery.

In 2006 SYSTMS-NY introduced a Managed Services product offering that provides the Small-Medium Business market a 24x7x365 'virtual' IT Staff. Our Managed Services product is a low cost, fixed fee service that proactively monitors and maintains your Microsoft Windows network with the goal of minimizing IT problems you face - leading to lower downtime, higher end user productivity and lower technical support costs.

SYSTMS of New York has a talented staff with many years of experience in a wide variety of industries. The SYSTMS-NY team members have provided enterprise security and technology solutions for an average of 12 years and have in-depth experience with regulatory requirements including HIPAA and GLBA and SOX (Sarbanes-Oxley).

Our certified instructors have been teaching Microsoft certification courses for a major IT training company over that last 5 years. In addition to training staff members have developed training courses that are currently being taught with the same IT training company. Our instructors are well versed in the subject matter but more importantly they have real world experience to backup the theory. We can supply cleared instructors, course development, training labs and hardware.

Our consulting team's Internet/e-commerce expertise includes a full understanding of front-office to back-office business processes, e-strategies, and software applications. We have broad industry background in telecommunications and perimeter security for local, national and global network infrastructures.

Sectors of expertise include healthcare, federal, state, and local agencies, manufacturing, telecommunications and finance industries. Our goal is to introduce, develop and implement technology to enable our clients to focus on their core competencies.

SYSTMS-NY specializes in providing solutions for a variety of technology platforms. We employ today's best-of-breed technologies and industry best practices to help our clients leverage and transform technology into a competitive advantage.
